PROGRAM AVAILABILITY

This program is available at the following metro campuses:

Atlanta -
2025 Satellite Pointe,
Duluth, GA 30096
(678) 377-5600

Indianapolis -
7251 W. McCarty Street,
Indianapolis, IN 46241
(317) 243-4519

Chesapeake -
2211 S. Military Highway,
Chesapeake, VA 23320
(757) 363-2121

Kansas City -
4100 Raytown Road,
Kansas City, MO 64129
(816) 753-9920

Dallas -
400 E. Airport Freeway,
Irving, TX 75062
(214) 333-9711

Las Vegas -
5870 S. Eastern Avenue,
Las Vegas, NV 89119
(702) 798-5511

Fremont -
420 Whitney Place,
Fremont, CA 94539
(510) 553-9600

Washington D.C. -
10640 Davidson Place,
Manassas, VA 20109
(703) 257-5515

Houston -
7651 Airport Boulevard,
Houston, TX 77061
(713) 644-7777

ABOUT THE PROGRAM

The Maintenance Technician program draws from AIM's core coursework in professional maintenance fields, introducing the student to electricity, surfaces and controls, transportation structures, power systems, hydraulics, and electrical control systems. The student is also guided in following process procedures, adequately documenting maintenance procedures within forms and records, ensuring a safe and compliant working environment, and developing as a maintenance professional.

The program features specialized instruction within areas such as inspection and assessment of maintenance projects, welding, wind energy, 3D printing, or other areas that the local campus and its employers have designated as essential within the maintenance industry local to the campus. All program electives include the Occupational Safety and Health Administration (OSHA) 10- hour general safety online certification.

AREAS OF INSTRUCTION

- General Science I: Math and General Physics
- General Science II: Tools, Surfaces, and Corrosion Control
- General Science III: Maintenance Operations and Records
- General Science IV: Basic Electricity
- Metallic Structures
- Electrical, Navigational & Communication Systems
- Non-Metallic Structures
- Aircraft Systems I
- Aircraft Systems III
- Reciprocating Engines
- Turbine Engines

Students will take one course of the following Maintenance Technician emphasis. *

- Industrial Pneumatic and Hydraulic Systems
- Related Structural and Pipe Welding
- Programmable Logic Controls
- Air Conditioning Systems
- Electrical Motors and Controls
- 3D Printing for Innovators
- Communication Systems
- Introduction to Sustainability
- Wind Energy Fundamentals
- Powerplant Systems

* Maintenance Technician emphasis courses vary by location. Please contact your campus for availability.
