

Drug and Alcohol Abuse Prevention Program

Revised 7/1/24

Campus Location: Aviation Institute of Maintenance
400 East Airport Freeway, Irving TX 75062
214-333-9711

The Drug Free Schools and Campus Regulations (EDGAR Part 86.100, Subpart B) require that, as a condition of receiving funds or any other form of financial assistance under any federal program, an institution of higher education must certify that it has adopted and implemented a program designed to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees, both on the institution's premise and as part of its activities. This Drug and Alcohol Abuse Prevention Program (DAAPP) policy was developed to inform the Institute, students, and employees of the seriousness of the use and abuse of illicit drugs and alcohol and to set forth the standards of conduct regarding such activity.

Aviation Institute of Maintenance supports the Drug-Free Schools and Campuses Regulations and is committed to providing a safe, healthy educational and work environment for all students and employees.

(1) Distribution of Annual Notification

The EDGAR Part 86 requires that schools annually distribute alcohol and drug policy notification in writing to students and employees. On or before October 1 of each year, an email is sent to all employees and students which contains a direct link to a PDF version of this policy. All new students who enroll after the distribution date will receive a copy of this policy during mandatory orientation prior to starting classes. New employees hired after the annual distribution date will receive a copy as part of the new employee materials. Additionally, a copy of the PDF is posted to the school's consumer information website for continuous reference.

Through the annual distribution of this policy, the school certifies that they have implemented a drug and alcohol prevention program in accordance with the Drug-Free Schools and Communities Act (DFSCA), as articulated in the Education Department General Administrative Regulations (EDGAR) Part 86, known as the Drug-Free Schools and Campuses Regulations pertaining to Drug and Alcohol Abuse Prevention.

A. Standards of Conduct

The unlawful possession, use, or distribution of illicit drugs and alcohol on Institute property or at any school sponsored activity by all students, staff, and faculty is strictly prohibited, even by individuals who are otherwise of legal age to do so. This includes the campus buildings, campus grounds, and parking areas, or while participating in off-site school/work-related activities such as but not limited to field trips, graduation ceremonies, school-sanctioned community service activities, or professional meetings attended by employees on behalf of the school.

These standards of conduct apply to all students who are registered at the Institution for at least one course as well as all full time and part time staff and faculty.

The Institution reserves the right to take whatever measures it deems necessary in response to an allegation of alcohol or other drug use in order to protect employees and students and the personal safety of the entire Institute’s community. A student or employee who violates the drug and alcohol policy, including underage drinking, is subject to both the campus policies and to criminal sanctions provided by federal, state, and local law. All instances of illegal drug use or underage drinking will be referred to the local authorities. Additionally, the school will impose disciplinary sanctions as defined in the Student Code of Conduct or the Employee Handbook for failure to abide by the standards of conduct.

B. Legal Sanctions

A student or employee who violates the drug and alcohol policy is subject to both the Institute’s policies and to criminal sanctions provided by federal, state, and local law. The following are a summary of the applicable legal sanctions.

FEDERAL PENALTIES FOR TRAFFICKING AND POSSESSION OF A CONTROLLED SUBSTANCE

| DRUG/SCHEDULE | QUANTITY | PENALTIES | QUANTITY | PENALTIES |
|--------------------------------|---|---|--|--|
| Cocaine (Schedule II) | 500–4999 grams mixture | First Offense: Not less than 5 yrs, and not more than 40 yrs. If death or serious injury, not less than 20 or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual. Second Offense: Not less than 10 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual. | 5 kgs or more mixture | First Offense: Not less than 10 yrs, and not more than life. If death or serious injury, not less than 20 or more than life. Fine of not more than \$10 million if an individual, \$50 million if not an individual. Second Offense: Not less than 15 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual. 2 or More Prior Offenses: Not less than 25 years. Fine of not more than \$20 million if an individual, \$75 million if not an individual. |
| Cocaine Base (Schedule II) | 28–279 grams mixture | | 280 grams or more mixture | |
| Fentanyl (Schedule II) | 40–399 grams mixture | | 400 grams or more mixture | |
| Fentanyl Analogue (Schedule I) | 10–99 grams mixture | | 100 grams or more mixture | |
| Heroin (Schedule I) | 100–999 grams mixture | | 1 kg or more mixture | |
| LSD (Schedule I) | 1–9 grams mixture | | 10 grams or more mixture | |
| Methamphetamine (Schedule II) | 5–49 grams pure or 50–499 grams mixture | | 50 grams or more pure or 500 grams or more mixture | |
| PCP (Schedule II) | 10–99 grams pure or 100–999 grams mixture | | 100 gm or more pure or 1 kg or more mixture | |

| PENALTIES | | |
|---|---------------------------|---|
| Other Schedule I & II drugs (and any drug product containing Gamma Hydroxybutyric Acid) | Any amount | First Offense: Not more than 20 yrs. If death or serious injury, not less than 20 yrs, or more than life. Fine \$1 million if an individual, \$5 million if not an individual. Second Offense: Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if not an individual. |
| Flunitrazepam (Schedule IV) | 1 gram | |
| Other Schedule III drugs | Any amount | First Offense: Not more than 10 years. If death or serious injury, not more than 15 yrs. Fine not more than \$500,000 if an individual, \$2.5 million if not an individual. Second Offense: Not more than 20 yrs. If death or serious injury, not more than 30 yrs. Fine not more than \$1 million if an individual, \$5 million if not an individual. |
| All other Schedule IV drugs | Any amount | First Offense: Not more than 5 yrs. Fine not more than \$250,000 if an individual, \$1 million if not an individual. |
| Flunitrazepam (Schedule IV) | Other than 1 gram or more | Second Offense: Not more than 10 yrs. Fine not more than \$500,000 if an individual, \$2 million if other than an individual. |
| All Schedule V drugs | Any amount | First Offense: Not more than 1 yr. Fine not more than \$100,000 if an individual, \$250,000 if not an individual. Second Offense: Not more than 4 yrs. Fine not more than \$200,000 if an individual, \$500,000 if not an individual. |

FEDERAL TRAFFICKING PENALTIES—MARIJUANA

| DRUG | QUANTITY | 1st OFFENSE | 2nd OFFENSE * |
|------------------------|--|---|--|
| Marijuana (Schedule I) | 1,000 kg or more marijuana mixture; or 1,000 or more marijuana plants | Not less than 10 yrs. or more than life. If death or serious bodily injury, not less than 20 yrs., or more than life. Fine not more than \$10 million if an individual, \$50 million if other than an individual. | Not less than 15 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual. |
| | 100 kg to 999 kg marijuana mixture; or 100 to 999 marijuana plants | Not less than 5 yrs. or more than 40 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine not more than \$5 million if an individual, \$25 million if other than an individual. | Not less than 10 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual. |
| | More than 10 kgs hashish; 50 to 99 kg marijuana mixture More than 1 kg of hashish oil; 50 to 99 marijuana plants | Not more than 20 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine \$1 million if an individual, \$5 million if other than an individual. | Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if other than an individual. |
| | Less than 50 kilograms marijuana (but does not include 50 or more marijuana plants regardless of weight) 1 to 49 marijuana plants; | Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual. | Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual. |
| Hashish (Schedule I) | 10 kg or less | Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual | Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual |
| | 1 kg or less | Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual. | Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual |

* The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is not less than 25 years imprisonment and a fine up to \$20 million if an individual and \$75 million if other than an individual.

Federal Law, Alcohol

Alcohol is not considered a controlled substance under the USE Code and is not subject to the same federal regulations as other drugs. The Federal Uniform Drinking Age Act of 1984 sets the minimum legal drinking age to 21. Individual states control the regulations and penalties relating to the possession and distribution of alcohol.

Texas State Law, Controlled Substances

The Institute complies with all federal, state, and local laws. A summary of the relevant sections of the Code of Texas are provided in this policy. Full details of the Code of Texas. Texas Controlled Substances Act can be found at [HEALTH AND SAFETY CODE CHAPTER 481. TEXAS CONTROLLED SUBSTANCES ACT](#)

The Texas Controlled Substance Act Sec. 481.032 places controlled substances into categories called Schedules. In Texas, the criminal penalties for violating the controlled substance laws are divided into Penalty Groups 1 through 4.

| Description | Penalties for manufacture, sell, or deliver, or possess with intent to manufacture, sell, or deliver | Penalties for Possession |
|--|--|---|
| Schedule I controlled substances | | |
| High potential for abuse and no accepted medical use. Sec 481.102 Includes opiates, heroin, cocaine. Sec 481.1021 Group 1-A includes LSD Sec 481.1022 Group 1-B includes fentanyl | Penalty Group 1 Sec 481.112 State Jail Felony Less than one gram Felony of the Second degree- One gram or more but less than four grams. Felony of the First degree- Four grams or more but less than 200 grams. 200 grams or more but less than 400 grams Imprisonment for life or term of not more than 99 years or less than 10 years. Fine not to exceed \$100,000 400 grams or more. Imprisonment for life or term of not more than 99 years or less than 15 years. Fine not to exceed \$250,000 | Penalty Group 1 Sec 481.115 State Jail Felony Less than one gram Felony of the Second degree- One gram or more but less than four grams Felony of the First Degree Four grams or more but less than 200 grams. 200 grams or more but less than 400 grams Imprisonment for life or term of not more than 99 years or less than 10 years. Fine not to exceed \$100,000 |
| | Penalty Group 1-A Sec 481.1121 State Jail Felony- Fewer than 20 units Felony Second degree- 20 or more units but fewer than 80 Felony of the First degree- 80 or more units but fewer than 4000 4000 units or more Imprisonment for not more than 99 years or less than 15 years. Fine not to exceed \$250,000. | Penalty Group 1-A Sec 481.1151 State Jail felony Fewer than 20 units Felony of the third degree- 20 units or more but less than 80 Felony of the Second degree- 80 or more units but fewer than 4000 Felony of the First Degree 4000 or more units but fewer than 8000. 8000 or more Imprisonment for life or term of not more than 99 years or less than 15 years. Fine not to exceed \$250,000 |

| | | |

| Schedule V controlled substances | | |
| Low potential for abuse, accepted medical use, limited physical or psychological dependency. | Sec 481.119 Class A misdemeanor | Sec 481.119 Class B misdemeanor |

Texas State Law, Alcohol

The Texas Alcoholic Beverage Code [TABC Code and Rules| TABC \(texas.gov\)](http://www.tabc.texas.gov)

The legal drinking age in Texas is 21. Adults and minors who give alcohol to a minor is a class A misdemeanor, punishable by a fine up to \$4000, confinement in jail for up to a year or both. Your driver's license would also be automatically suspended for 180 days when convicted. Sale to a minor is a class A misdemeanor, punishable by a fine up to \$4000, confinement in jail for up to a year or both. In Texas, an operator of a motor vehicle is considered under the influence of alcohol if a chemical screening shows a blood-alcohol content (BAC) of 0.08 percent or greater. It is illegal for a person under 21 years old to operate a motor vehicle or watercraft in a public place while having any detectable amount of alcohol in their system.

Punishment and fines driving while intoxicated vary based on the number of prior convictions. Penalties range from a suspension of license through first degree felony, fines as much as \$10,000, or jail time up to 10 years.

Consequences for a minor's offense of driving under the influence of alcohol include the following. Third or subsequent offenses may be more strict.

- A class C misdemeanor, punishable by a fine of up to \$500
- Attendance of an alcohol awareness class
- 20 to 60 hours of mandatory community service

- 60 to 120 day driver's license suspension and no eligibility for an occupational license for the first 30-90 days

C. Health Risks

The use of drugs, including alcohol and tobacco, can produce serious short and long term health risks. Substance use can lead to dependency and addiction, health problems, mental illness, social issues, and violence. Beyond the harmful consequences for the individual, drug and alcohol use can cause serious emotional, mental, and physical health problems for others.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgement and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low-to-moderate doses of alcohol also increase the incidence of a variety of aggressive acts including domestic and child abuse. Moderate-to-high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disabilities. In addition, research indicates that children of alcoholic parents are at greater risk of becoming alcoholics than are other youngsters.

A summary of the health risks associated with the substances covered by the Controlled Substances Act (21 USC 811) are summarized in the Appendix. For additional health risks specifically related to your situation, contact your health care provider.

D. Drug and Alcohol Programs

Students and employees who use controlled substances or who abuse alcohol are encouraged to seek assistance through the campus Student Services office or the office of the Campus Executive Director. A binder of community resources can also be found in the Learning Resource Center at the campus. Employees are also encouraged to seek confidential assistance from the Human Resources department at the corporate office by calling 757-456-5065. The staff will assist you or provide an appropriate referral. Although the school does not have in-house counseling or treatment services, many options are available in the surrounding areas for employees and students in need of substance-abuse counseling, treatment, or rehabilitation and reentry programs.

You can find treatment facilities in your area by searching at www.findtreatment.gov. In addition, the school maintains the following list of national and local services and hotlines related to substance abuse. For more information relating to your area and needs, contact the Campus Executive Director or the Student Services Coordinator for a confidential discussion.

National Hotlines

| Organization | Phone/Web | Services |
|--|--|---|
| Substance Abuse and Mental Health Services Administration (SAMHSA) | 1-800-662-HELP | information on alcohol and drug abuse, local treatment options, support through hotline counselors about to speak with about alcohol, drug or family problems |
| Alcoholic Anonymous | www.aa.org | Recovery assistance from alcoholism |

E. Disciplinary Sanctions

Student Sanctions. In accordance with the Student Code of Conduct, use, possession, or distribution of illegal narcotic, alcoholic, or other controlled substances, except as expressly permitted by law, to

include public intoxication, is a Level I violation and is deemed to be among the most serious types of violations. As a condition of enrollment, students must abide by the terms of this policy and the Student Code of Conduct. If any violation of the standards of conduct are violated, sanctions will be imposed which would include the following.

- Reporting the violation to law enforcement officials.
- Remove a student from Institution activities, to include classroom lecture, practical labs, and externships, when impairment is noted or feared.
- Taking appropriate disciplinary action against such student, up to and including probation, expulsion, termination of enrollment

Employee Sanctions. Our Institute's reputation depends entirely on the ethical and legal behavior of its employees. The Institute is committed to a standard of ethics, integrity and compliance with applicable laws in all aspects of conducting business. As such, employees are expected to observe standards of ethical conduct as described in the Employee Handbook and in this policy. If any violation of the standards of conduct are violated, sanctions will be imposed which would include the following.

- Reporting the violation to law enforcement officials.
- Remove the employee from the workplace or any Institution activities when impairment is noted or feared.
- Submission to a drug, alcohol, or illegal substance test.
- Taking appropriate disciplinary action against such employee in accordance with the Employee Handbook, which could include verbal or written warning, performance improvement plan, demotion, suspension, or separation of employment.
- Require participation in a substance abuse rehabilitation program approved for such purposes by a federal, state, local health, law enforcement or other appropriate agencies as a condition of continued employment.

(2) Biennial Review

The school will complete a review of the Drug and Alcohol Abuse Prevention (DAAPP) policies and procedures. The biennial review will occur no later than February of each odd numbered year (2023, 2025, 2027, etc) and cover the previous two calendar years. For example, the review conducted in February 2023 will cover the calendar years 2021 and 2022.

The school will form a task force to accomplish the biennial review, to include at a minimum the following individuals. The task force will include the Campus Executive Director or Assistant Campus Director, the Student Services Coordinator, the Director of Education, and other campus representatives as needed. The objective of the review is to determine the effectiveness of, and to implement any needed changes to the DAAPP and to ensure the campus is enforcing the disciplinary sanctions and policies consistently. In accomplishing the objectives, the following steps will be considered during the review.

1. Determine the number of drug and alcohol-related violations and fatalities that occurred on campus or as part of any institution's activities and are reported to campus officials during the last 2 years. Document the particulars of the offense(s), any mitigating circumstances, and the school sanctions imposed. Cover student and employee violations. Remove all personally identifying information from the documentation.
2. Review the offenses and subsequent institutional sanction. Compare data obtained year over year. Have the sanctions been enforced consistently?

3. Are there any recommendations for improvement in consistency of the disciplinary policies?
4. Review the educational programming held at the campus during the previous 2 years relation to the policy. Has the DAAPP policy been effective in preventing the possession, use, or distribution of drugs or alcohol, as defined in this statement?
5. If not, what action plans are in place to improve the process.

The Biennial Review Report, at a minimum, should include answers to the above questions. The report will also include a written statement certifying that the school has adopted and implemented the drug prevention program described in § 86.100. The report and the certification statement will be kept on campus and a copy emailed to the Director of Academic Affairs at the corporate office no later than February 28 of each odd numbered year. A copy of the Biennial Review Report will be posted on the school's consumer information web site.

3) Record Keeping

The school will keep a copy of the annual Drug and Alcohol Prevention Plan policies, reports and backup documentation from the biennial review, and any other records reasonably related to the school's compliance with the drug and alcohol abuse prevention program for a minimum of 5 years.

Appendix: Health Risks Associated with Use of Illicit Drugs and Abuse of Alcohol

| <i>Drug</i> | <i>Schedule</i> | <i>Trade Names</i> | <i>Medical use</i> | <i>Dependency</i> | <i>Usual method of abuse</i> | <i>Possible effects</i> | <i>Effects of Overdose</i> | <i>Withdrawal</i> |
|-------------------|-----------------|--|--|-------------------|-------------------------------------|--|---|--|
| Narcotics | | | | | | | | |
| Fentanyl | II | Apache, China Girl, Dance Fever, Friend, Goodfellas, Great Bear, He-Man, King Ivory, Murder 8, Tango & Cash. | Analgesic, anesthetic | High | Injected, snorted, smoked, oral, | Drowsiness, inability to concentrate, apathy. Slowed physical activity, constriction of the pupils, flushing of the face and neck, constipation, nausea, vomiting, and slowed breathing | Overdoses of narcotics are not uncommon and can be fatal. Constricted (pinpoint) pupils, cold clammy skin, confusion, convulsions, extreme drowsiness, and slowed breathing | Restlessness, irritability, loss of appetite, nausea, tremors, drug craving, severe depression, vomiting, increased heart rate and blood pressure, and chills alternating with flushing and excessive sweating |
| Heroin | I | Big H, Black Tar, Chiva, Hell Dust, Horse, Negra, Smack, and Thunder | None | High | injected, smoked, snorted | | | |
| Hydromorphone | II | D, Dillies, Dust, Footballs, Juice, Smack | Pain reliever | High | Oral, ingestion | | | |
| Methadone | II | Amidone, Chocolate Chip Cookies, Fizzies with MDMA, and Wafer | Analgesic | High | Swallowed, injected | | | |
| Morphine | II | Dreamer, Emsel, First Line, God's Drug, Hows, MS, Mister Blue, Morf, Morpho, Unkie | Pain reliever | High | Oral, injected | | | |
| Opium | II | Aunti, BigO, Black ill, Chinese Molasses, Dopium, Dreams, FiDoNie, G, God's medicine, Guma, Joy, Midnight Oil, O, OP, Pox. | None | High | Smoked, injected, oral | | | |
| Oxycodone | II | Hillbilly Heroin, Kicker, OC, Ox, Roxy, Perc, and Oxy, OxyContin | Analgesic | High | Oral, injected | | | |
| Stimulants | | | | | | | | |
| Amphetamines | II | Bennies, Black Beauties, Crank, Ice, Speed, and Uppers | Treat ADHD | High | Oral, injected | Sense of exhilaration, enhanced self-esteem, improve mental and physical performance, increase activity, reduce appetite, extend wakefulness for prolonged period, Chronic, high-dose use is frequently associated with agitation, hostility, panic, aggression, and suicidal or homicidal tendencies, tolerance | In overdose, unless there is medical intervention, high fever, convulsions, and cardiovascular collapse may precede death. Because accidental death is partially due to the effects of stimulants on the body's cardiovascular and temperature-regulating systems, physical exertion increases the hazards of stimulant use | Abrupt cessation is commonly followed by depression, anxiety, drug craving, and extreme fatigue |
| Cocaine | II | Blow, Coca, Coke, Crack, Flake, Snow | Rare | High | Snorted, injected, smoked | | | |
| Khat | I, IV | Abyssinian Tea, African Salad, Catha, Chat, Kat, and Oat | None | High | Chewed, smoked | | | |
